What did we do?

2023/2024 was the first financial year that Te Matatini received equitable government funding to deliver our vision and key strategic focus areas. Throughout the year the organisation experienced significant change, both- from within National Office and across each Rohe. In this financial year, Te Matatini was able to increase staffing to meet business needs and increase capability. This included growth in our National Office made up of three distinctive teams: Rohe development, Operations and Government Relations. The recruitment of 26 new staff included 12 Pou Takawaenga from each Rohe. This was the first step in connecting with every Rohe across the motu and implementing the Rohe Development Model.

Te Matatini Society Incorporated Statement of Service Performance For the Year Ended 30 June 2024

Since the 12 Pou Takawaenga were appointed, all Rohe were able to deliver Rohe Development Plans aligned to the eight Key Result Areas of Te Pītau Whakarei. 70% of the additional stimulus funding (11.9m) was provided to the Rohe to deliver services aligned to Te Pītau Whakarei and the strategic objectives of Te Matatini. Rohe also hosted 13 regional competitions including Te Whenua Moemoeā in Australia where we saw a huge increase in participation. This has led to more teams qualifying for Te Matatini o Te Kāhui Maunga National Kapa Haka Festival in 2025. Along with the 13 regional competitions, Te Mana Kuratahi and Ngā Kapa Haka Kura Tuarua were both held in this financial year, in Nelson. These events were livestreamed and available for viewing on Māori TV plus. Te Matatini provided funding to each kapa haka team attending Te Mana Kuratahi and Ngā Kapa Haka Kura Tuarua national competitions. Throughout the year NZQA and Te Matatini also acknowledged Awatea Rivers Hall, from Te Kura Kaupapa Māori O Hoani Waititi, as the first Top Subject Scholar for Te Ao Haka. Te Matatini also supported international tours for Ngāti Whakaue traveling to Taiwan for the Pasawali festival. Te Whānau Apanui was also supported for two major international events: the first to China and FestPAC. There has been several kapa haka representatives accompanying ministers on their overseas trade delegations with our support.

Judgements made in the reporting of service performance information

Te Matatini Society Incorporated National Board, in consultation with the Chief Executive of Te Matatini, has determined what information to present, based on assessment of what was considered most appropriate and meaningful to users when assessing performance against the Te Matatini strategic vision, Annual Plan and Outcome Agreement between Te Matatini and Manatū Taonga – Ministry for Culture and Heritage. The judgements that had the most significant effect on the non-financial information presented related to the selection of information as to what Te Matatini has achieved in the period, and the selection of performance measures for those key activities particularly where activities are not performed annually.

Selection Judgements

The selection of key activities to report are based on the four key focus areas identified within Te Matatini Annual Plan 2023/2024. The Annual Plan is based on goals identified under Te Pītau Whakarei, the Te Matatini 10-year Strategic Plan (2017 – 2027). Te Pītau Whakarei aims to foster prosperity through the growth of Māori culture and identity, contribute positively to Māori performance in relation to the wellbeing index and support the economic growth of Kapa Haka communities everywhere. The ultimate aim is for Te Matatini to become an inclusive and integral part of whanau, hapū, iwi and the wider Aotearoa New Zealand society.

Measurement Judgements

The selection of performance measures for each key activity has been based around both the quantity of funding delivered during the performance year and number of individuals or entities impacted, as this information is retained for both internal management and external funding report purposes.

Te Matatini Society Incorporated
Statement of Service Performance
For the Year Ended 30 June 2024

Changes in SSP reporting from previous financial year

The SSP is based on the Outcome Agreement between Te Matatini and Manatū Taonga, which is negotiated each year in consideration of the following factors:

- level of funding provided by Manatū Taonga.
- whether it is a National Festival year, or a regional competition year.

Financial year 2023/24 was the first year Te Matatini received \$17.04 million stimulus funding to support the development of Kapa Haka in the rohe. Our focus as an organisation has shifted from securing sustainable and equitable funding to developing and implementing the Rohe Development Model and distribution of funding.

Te Matatini National Festival is a biennial event. As there was no festival in the reporting year our focus was on preparing for the 2025 festival.

Te Matatini Society Incorporated

Notes to the Consolidated Financial Statements

For the Year Ended 30 June 2024

1. Statement of Accounting Policies

Reporting Entity

Te Matatini Society Incorporated (the "Society") is registered under the Incorporated Societies Act 1908.

These consolidated financial statements incorporate Te Matatini Incorporated Society (the controlling entity) and its subsidiary undertaking Aotearoa Kapa Haka Limited - together referred to as the 'Group'.

The Group is involved in the promotion of Kapa Haka for the benefit of Māori and tikanga Māori. The Group's primary objective is to provide these services for the social benefit of people and organisations and not for financial return to equity holders. For this reason it is designated as a Public Benefit Entity (PBE).

Basis of preparation

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice ("NZ GAAP"). They comply with Public Benefit Entity International Public Sector Accounting Standards ("PBE IPSAS") and other applicable Financial Reporting Standards, as appropriate for Tier 2 not-for-profit public benefit entities, for which all reduced disclosure regime exemptions have been adopted.

The Group qualifies as a Tier 2 reporting entity as for the two most recent reporting periods it has had between \$5m and \$33m operating expenditure.

These consolidated financial statements were authorised for issue by the Executive Committee on 14 October 2024.

(b) Measurement Base

The consolidated financial statements have been prepared on a historical costs basis.

(c) Functional and presentation currency

The consolidated financial statements are presented in New Zealand dollars (\$) which is the controlling entity's functional and Group's presentation currency, rounded to the nearest dollar (\$'s).

There has been no change in the functional currency of the Group during the year.

Use of judgements and estimates

The preparation of the consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

(a) Judgements

Judgements made in applying accounting policies that have had the most significant effects on the amounts recognised in the consolidated financial statements include the classification of revenue as exchange or non-exchange.

Te Matatini Society Incorporated
Notes to the Consolidated Financial Statements
For the Year Ended 30 June 2024

(b) Assumptions and estimation uncertainties

Assumptions and estimation uncertainties applied in the consolidated financial statements include the following:

- Key assumptions underlying determining the recoverable amounts for impairment testing
- Useful life, recoverable amount, depreciation/amortisation method and rate
- Residual value of Mahau.

Significant Accounting Policies

The following particular accounting policies, which materially affect the measurement of financial performance and financial position, have been applied:

Basis of consolidation

i. Joint ventures

Joint ventures are those entities over whose activities the Group has joint control, established by a binding agreement and requiring unanimous consent for strategic financial and operating decisions.

Joint ventures that are not structured in a separate vehicle are classified as either jointly-controlled-operations or jointly controlled assets. The consolidated financial statements include the Group's share of assets, liabilities, expenses, and revenues from the jointly-controlled-operation or jointly controlled asset on a line-by-line basis.

ii. Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

Unrealised gains arising from transactions with equity accounted associates and jointly-controlled-entities are eliminated against the investment to the extent of the Group's interest in the investee.

Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Changes in Accounting Policies

There were no changes in accounting policies during the year

Subsidiary and jointly controlled asset

Aotearoa Kapa Haka Limited is a 100% owned subsidiary (production company) of the Society. The company was incorporated on 7 May 2004.

An agreement with New Zealand Māori Arts & Crafts Incorporated gives Te Matatini joint ownership of the Mahau asset. The agreement also provides for the sharing of cost and revenue on a 50:50 basis.

Te Matatini Society Incorporated

Notes to the Consolidated Financial Statements

For the Year Ended 30 June 2024

Revenue

The Group derives income through the provision of outputs for the Crown through the Ministry of Culture and Heritage for services to third parties, and income from its investments. Such income is recognised when earned and is reported in the financial period to which it relates.

Revenue is recognised when the amount of revenue can be measured reliably and it is probable that economic benefits will flow to the Group, and measured at the fair value of consideration received or receivable.

The following specific recognition criteria in relation to the Group's revenue streams must also be met before revenue is recognised.

i. Revenue from exchange services

Provision of services

Revenue from services rendered is recognised in surplus or deficit when the service is rendered.

Amounts received in advance for services to be provided in future periods are recognised as a liability until such time as the service is provided.

ii. Revenue from non-exchange transactions

Non-exchange transactions are those where the Group receives an inflow of resources (i.e. cash and other tangible or intangible items) but provides no (or nominal) direct consideration in return.

Grants are recognised as revenue when the conditions associated with the grants have been fulfilled.

With the exception of services-in-kind, inflows of resources from non-exchange transactions are only recognised as assets where both:

- It is probable that the associated future economic benefit or service potential will flow to the entity, and
- Fair value is reliably measurable.

Volunteer services received are not recognised as the fair value of the services are not able to be reliably measured.

Liabilities are recognised in relation to inflows of resources from non-exchange transactions when there is a resulting present obligation as a result of the non-exchange transactions, where both:

- It is probable that an outflow of resources embodying future economic benefit or service potential will be required to settle the obligation, and
- The amount of the obligation can be reliably estimated.

Employee benefits

Short-term employee benefits

Short-term employee benefit liabilities are recognised when the Group has a legal or constructive obligation to remunerate employees for services provided within 12 months of reporting date, and is measured on an undiscounted basis and expensed in the period in which employment services are provided.

Te Matatini Society Incorporated
Notes to the Consolidated Financial Statements
For the Year Ended 30 June 2024

Financial instruments

(a) Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus transaction costs that are directly attributable to its acquisition or issue. At initial recognition, an entity may measure short-term receivables and payables at the original invoice amount if the effect of discounting is immaterial.

The Society derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

(b) Classification and subsequent measurement

Financial assets

On initial recognition, all of the Groups' financial assets are classified and measured at amortised cost.

A financial asset is measured at amortised cost if it meets both of the following conditions:

- it is held within a management model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in surplus or deficit. Any gain or loss on derecognition is recognised in surplus or deficit.

Cash and cash equivalents represent highly liquid investments that are readily convertible into a known amount of cash with an insignificant risk of changes in value, with maturities of 3 months or less.

Financial liabilities

All of the Group's financial liabilities are classified and measured at amortised cost.

Financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in surplus or deficit. Any gain or loss on derecognition is also recognised in surplus or deficit.

(c) Impairment of financial assets

The Group recognises loss allowances for expected credit losses (ECLs) on financial assets measured at amortised cost.

The Group measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- bank balances for which credit risk (i.e., the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

Te Matatini Society Incorporated

Notes to the Consolidated Financial Statements

For the Year Ended 30 June 2024

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when the financial asset is more than 90 days past due. ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Leases

Classification and treatment

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases.

The Group currently has no finance leases.

Operating leases

Leases that are not finance leases are classified as operating leases.

Operating leases are not recognised in the Group's statement of financial position. Payments made under operating leases are recognised in surplus or deficit on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

Statement of Cash Flows

Operating activities include amounts received from provision of services, investment income and other income sources and payments to employees and suppliers to manage the day-to-day operations of the Group.

Investing activities are those related to the purchase and disposal of investments and property, plant and equipment and intangibles.

Financing activities comprise loans and borrowings.

Goods and Services Tax (GST)

All items in the financial statements are exclusive of GST, with the exception of Sundry Receivables and Accounts Payables which are inclusive of GST.

Income Tax

The Society is registered as a charity under the Charities Services and as such is exempt from the payment of Income Tax.

The Society has taken legal advice that Aotearoa Kapa Haka Limited will also be regarded as a non taxable charitable entity as it operates solely in furtherance of the Society's objectives.

Property, Plant and Equipment

Property, Plant and equipment are recorded at cost less accumulated depreciation.

Depreciation or amortisation is provided on a diminishing value basis on all items at the following rates:

Office Equipment	10% - 33%	DV
Computer Equipment	40% - 48%	DV
Computer Website	40% - 48%	DV
Leasehold Improvements	10%	DV
Mahau	Nil	

The cost of Mahau is 50% of its construction price to the other joint venturer, being the cost of labour and materials. Mahau is not depreciated as its residual value is considered to exceed its cost.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Opinion

We have audited the general purpose financial report of Te Matatini Society Incorporated (“the Society”) and its subsidiary (together, “the Group”), which comprise the consolidated financial statements on pages 76 to 90, and the consolidated service performance information on pages 71 to 75. The complete set of consolidated financial statements comprise the consolidated statement of financial position as at 30 June 2024, the consolidated statement of comprehensive revenue and expense, consolidated statement of changes in equity, consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion the accompanying general purpose financial report presents fairly, in all material respects:

- the consolidated financial position of the Group as at 30 June 2024, and (of) its consolidated financial performance, and its consolidated cash flows for the year then ended; and
- the consolidated service performance for the year ended 30 June 2024, in accordance with the Group’s service performance criteria,

in accordance with Public Benefit Entity Standards Reduced Disclosure Regime (“PBE Standards RDR”) issued by the New Zealand Accounting Standards Board.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with International Standards on Auditing (New Zealand) (ISAs (NZ)) and the audit of the consolidated service performance information in accordance with the ISAs and New Zealand Auditing Standard (NZ AS) 1 *The Audit of Service Performance Information (NZ)*. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the General Purpose Financial Report section of our report. We are independent of the Group in accordance with Professional and Ethical Standard 1 *International Code of Ethics for Assurance Practitioners (including International Independence Standards) (New Zealand)* issued by the New Zealand Auditing and Assurance Standards Board, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other than in our capacity as auditor we have no relationship with, or interests in, the Society or its subsidiary.

Other Information

The Executive Committee is responsible for the other information. The other information obtained at the date of this auditor’s report is information contained in the general purpose financial report, but does not include the consolidated service performance information and the consolidated financial statements and our auditor’s report thereon.

Our opinion on the consolidated service performance information and consolidated financial statements does not cover the other information and we do not express any form of audit opinion or assurance conclusion thereon.

In connection with our audit of the consolidated service performance information and consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated service performance information and the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

BDO Wellington Audit Limited

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Those charged with governance are responsible on behalf of the Group for:

(a) the preparation and fair presentation of the consolidated financial statements and consolidated service performance information accordance with Public Benefit Entity Standards RDR issued by the New Zealand Accounting Standards Board;

(b) service performance criteria that are suitable in order to prepare service performance information in accordance with Public Benefit Entity Standards RDR; and

(c) such internal control as those charged with governance determine is necessary to enable the preparation of the consolidated financial statements and consolidated service performance information that are free from material misstatement, whether due to fraud or error.

In preparing the general purpose financial report those charged with governance are responsible for assessing the Society ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless those charged with governance either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the General Purpose Financial Report

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole, and the consolidated service performance information are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (NZ) and NZ AS 1 will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate or collectively, they could reasonably be expected to influence the decisions of users taken on the basis of this general purpose financial report.
